

# ShowCase™

## More Than Good Looks

With a substantial woodgrain texture embossment, Raynor ShowCase™ brings beauty and instant curb appeal to any home. But good looks are just the beginning. Beneath the surface, ShowCase is also one of the most stringently engineered garage doors you can own. Its strong, two-sided, steel design provides superior strength, unrivaled durability, and unsurpassed protection against noise, impact, and weather.

### Insulation

ShowCase 2" thick sections feature a core of polystyrene insulation pressure bonded between two high-strength, impact-resistant steel skins yielding an R-Value of 10.25.

### Thermal Protection

A vinyl joint seal prevents airflow between sections, while a mechanically interlocked vinyl thermal break prevents heat loss and eliminates metal to metal contact between hot and cold surfaces, allowing the insulation to be fully effective.

### Finishes

Available in a variety of finishes to meet your needs: 10 standard colors or choose from over 1,800 OptiFinish™ colors.

## ShowCase™

ShowCase is made from rugged, galvanized steel inside and out. Its two-sided steel design encases a core of thermally bonded, CFC-free, expanded polystyrene insulation. A full 2" thick, ShowCase features sandwich-style construction made from high-strength, impact-resistant steel and provides thermal protection at an 10.25 R-value.
